DVD CLE In-House Programs: A Flexible CLE Option!

With **DVD** CLE, you have access to the latest, most up-to-date TexasBarCLE course DVD videos and written materials—each one available for a showing in your office, at your convenience.

For each showing, we will submit the application to the State Bar's MCLE Department for participatory credit. (To be so accredited, each in-house program must have two or more attorneys attend the program.)

Flexibility and convenience are key benefits of **DVD** CLE in-house programming. For example, all **DVD** CLE in-house seminars qualify for "expanded" viewing periods. This means that you could choose to show a program during, say, the month of October. We would so indicate on the accreditation application with the MCLE Department. Your attendees could view the program on whichever dates in October they could participate together as a group; the date on their completed MCLE cards would be "October 1-30," and then the year. Thus, expanded viewing gives you flexibility to adjust to the shifting schedules of your attendees.

DVD CLE programs are purchases, not rentals. Following your showing, you may keep the course DVD(s) and written materials. You need only to return the completed MCLE cards to **DVD** CLE.

To make your selections, please see the enclosed schedule. We look forward to serving you!
